

Transform risk management and regulatory compliance from complex burdens to strategic advantages.

Over the last few years, financial institutions have seen substantial increases in operational work. Technology is moving faster than ever, regulations are expanding and consumer behavior is evolving.

To manage risk and compliance, you must keep up with these changes. If you're doing that with spreadsheets, you already know how difficult it is to effectively manage all of the aspects of risk and compliance management.

## YOUR INTEGRATED, COMPREHENSIVE RISK MANAGEMENT & COMPLIANCE SOLUTION

## Our solutions and services work together for seamless integration of risk and compliance management.

- **Customized solutions:** Our dynamic, user-friendly software is customizable to your company's specific requirements.
- **Exam readiness:** Our products and services work together to assure your organization is exam-ready at all times, even ahead of regulatory exams and audits.
- **The highest level of security:** Our comprehensive risk management services and leading technology are held to the highest level of security standards.
- **Powerful products, proven results:** Our dynamic solutions and services have been proven to save time, decrease internal workload and risk level, and improve data collection/collaboration efforts across all areas of business for over 1,500 clients.
- **Unlimited training and support:** Our dedicated team has unparalleled industry knowledge, and we partner with you every step of the way. Nothing is outsourced. Every step of your solution is backed by responsive, reliable customer service experts: 24/7.
- **Quality work, assured accuracy:** Our work is thorough, meticulous and team-reviewed, delivering accurate work that assures peace of mind for our clients.

### IF IT'S NOT MEASURED, IT'S NOT MANAGED.

How do you know if your **risk management** systems are working? Metrics. With our interactive dashboard and tools, you'll know exactly where you stand in each risk category, and how you can improve, for the most effective and comprehensive risk management in the financial industry.

### IF IT'S NOT DOCUMENTED, IT DIDN'T HAPPEN.

For highly regulated institutions like banks, credit unions, mortgage companies and fintechs, maintaining **compliance** is more than just following federal and state regulations — it's having the ability to prove it. Our software enables your organization to satisfy regulations and fulfill reporting requirements, for an organized, effective process to demonstrate that the appropriate controls are in place.

### IF IT'S NOT INTEGRATED, IT'S NOT EFFECTIVE.

The Ncontracts platform is created and supported by a team with unparalleled experience and expertise in the financial industry. But it's not just software — we provide oversight, monitoring and service for **effective, comprehensive integration of your risk management and compliance processes.**
